FUTURE HOMEMAKERS OF AMERICA

This year the Senior Chapter of the Future Homemakers of America has had several projects. Among them are selling United Nations cookbooks from the profits of which we made a contribution to the Freedom Fountain, sending food to needy families, and helping a sick lady with her household work.

Our first president this year was June Dunshee. Upon her resignation because she joined the T. & I. program, Doris Wells, our vice-president became president and Dorothy Huyck was elected vice-president. Then both Doris Wells and Dorothy Huyck resigned their offices because of working conditions and Jo Ann Salz and Naideen Patterson were elected to the offices of president and vice-president respectively.

Other officers are secretary, Betty Murlin; treasurer, Betty Beasley; historian, Shirley Wilson; parliamentarian, LaVerne Arrington; reporter, Jeanne Barnett; song leader, Mary Lee Swift.

Everett Hunter showed the Champion Poland barrow and gilt and Charles Obermiller showed the Champion Shropshire ram. The livestock judging team composed of Everett Hunter, Dwight Van Dorn and Billy Rutledge won 1st. Marvin Wells placed 7th on a steer at Tulsa and Dwight Van Dorn placed 12th on his steer. The livestock team won third.

At the Oklahoma State Fair our livestock team won 2nd out of 72 teams. The livestock team, composed of Everett Hunter, Dwight Van Dorn, Billy Rutledge, and J. W. Grander in the State livestock runoff at Stillwater, was the highest in school judging team and won the honor of representing the State F.F.A. in the National Livestock Judging contest at Denver, January 12th. They won 1st there with Everett Hunter high individual, Dwight Van Dorn 4th individual, Billy Rutledge high man on hogs. They also were high team on sheep and hogs and 2nd on cattle. J. W. Gardner was alternate on the team.

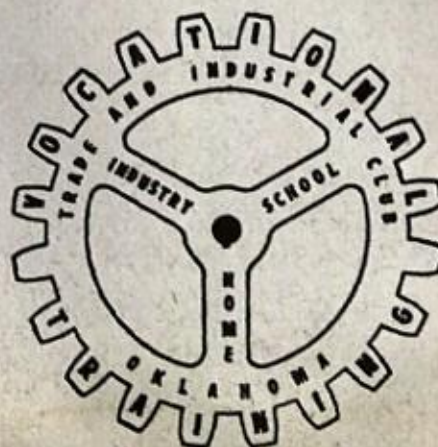

The boys are operating a 325 acre farm this year. They have 240 acres sowed to wheat and plan to put the remainder of the ground to sweet clover and maize to begin a rotation system of farming. They purchased a new tractor, drill and Braham Hoeme through a loan from the school which they plan to pay back through profits from the farm. The boys each work 2 days free at the farm and provide all the labor. With all of this many boys gain experience in operating and adjusting machinery, cleaning and treating seed, spraying and grooming cattle, mixing feed and many other important farm activities.
